Subject: URGENT: Federal Grand Jury Referral Request – Retaliation, Rights Obstruction, and Life-Threatening Violations

Dear Governor Braun,

I am writing to you directly because this is now a matter of life and death for myself and my disabled child, J.A.F.

I am a **plaintiff in federal litigation**, not a defendant. I have already requested a referral to a **Federal Grand Jury** through IHCD, but they dismissed it improperly. I am demanding your immediate intervention to ensure that this referral is made.

Attached is the same response I submitted to IHCD on **August 18, 2025**. That document outlines housing obstruction, ADA/Section 504/VAWA violations, and the unlawful withholding of my federally valid Mainstream Voucher.

Since then, the situation has worsened. I am now facing:

- **Medical obstruction** (denial of necessary care and insurance).
- **Food benefit obstruction.**
- **Telecommunications interference.**
- **Housing obstruction.**
- **Unlawful garnishment of disability benefits.**

This is not coincidence — it is **retaliation** because I possess **evidence of wrongdoing**, and I am being targeted by an unlawful mechanism that is stripping me and my daughter of our constitutional rights.

Much of my evidence was preserved here (and this was still when my voucher was in KY before the port to Indiana):

 <https://archive.org/details/@jfouts1979>

However, I am no longer able to save additional evidence there due to interference. Substantial additional evidence exists and must be submitted into a **criminal police report** and formally reviewed by **prosecutorial agencies**.

Therefore, I demand the following:

1. Immediate referral of my case for **Federal Grand Jury review**.
2. Immediate investigation into the **unlawful mechanism** obstructing my housing, healthcare, food benefits, and legal rights including being stripped of due process, denied the right to have a trial with a jury (which I chose as the plaintiff), denied defendants being served summonses, denied any hearing, etc... in four federal circuits at the district and appellate levels (2nd, 6th, 9th, DC Circuit) - so this is orchestrated by a power that has authority over multiple federal circuits...
3. Direction to IHCD and its contractors to immediately comply with state and federal law and cease all obstruction, and immediately provide a housing navigator as well as an ADA Accommodation as requested previously - and immediately release the wrongfully withheld paper copy of the voucher so I can actually use it.
4. Immediate facilitation of a **criminal police report**, with secure acceptance of my physical and digital evidence.
5. Immediate involvement of prosecutorial agencies.
6. Immediate referral to victim services for me and my child as we are victims of mass crime and have been harmed greatly and continue to be.

Governor Braun, I am asking you to step in now to prevent irreparable harm. If this is ignored, the responsibility for what happens next will rest squarely with those who refuse to act.

Respectfully,

/s/ John R. Fouts, MBA

Evidence Index – John R. Fouts

Prepared for Governor Braun's Office

Date: August 2025

Prepared by: John R. Fouts, MBA (plaintiff, federal litigation)

◆ Housing Obstruction (IHCD / CASI)

- **Aug 18, 2025 letter to IHCD** (attached)
- Valid Mainstream Voucher (extended through Sept 27, 2025) unlawfully withheld.
- Navigator request denied, landlord lists inaccurate, VAWA certification unanswered.

- **Regulations violated:** ADA, Section 504, VAWA, Fair Housing Act, 24 C.F.R. §§ 982.54 & 982.555, Olmstead Act, Mainstream voucher protections themselves, as well as 1915c violations
-

◆ **Medical & Healthcare Obstruction**

- Denial of medically necessary care for myself and my disabled child, J.A.F. - including medically necessary appropriate larger than standard dosages of stimulant medication for vascular tone regulation and to regulate autonomic dysfunction (in addition to narcolepsy and TNFRSF13B deficiency biological alterations and adrenergic receptor mutation among others), wrongful denial of iron and copper infusions, wrongful ban by multiple healthcare agencies globally for filing 2 complaints about 2 doctors. Copper and Iron and appropriate stimulant dosage are only a few examples, but are NECESSARY FOR SURVIVAL...
 - Interference with insurance coverage and essential equipment.
 - Violations of ADA, Section 504, Olmstead, and civil rights law, and violations of multiple constitutional amendments, torts, and criminal violations as well.
-

◆ **Food Benefit Obstruction**

- Improper suspension and reduction of SNAP and related supports.
 - Direct retaliation for protected activity.
 - Again, multiple violations of multiple types.
-

◆ **Telecommunications Interference**

- Interruption and interference with electronic communications, impairing access to services, counsel, and the courts.
 - Unlawful surveillance without warrant of my phone - confirmed by T-Mobile with them stating there is nothing they can do about it essential - via a warrant canary clause.
 - Refusals of FOIA across the board
 - Unlawful hypervisor type spyware on multiple laptops - confirmed with digital evidence - that has not been allowed to be submitted - authorities refuse to allow submission of evidence - not a normal situation whatsoever...
-

◆ **Disability Benefit Garnishment**

- SSDI funds unlawfully garnished by Kentucky despite no valid debt.
 - Clear due process violations across the board and again multiple violations of multiple types (civil, criminal, constitutional, and tort).
-

◆ **Evidence Archive**

-

Archived documentation available here (prior to being able to port voucher to Indiana - but still dealing with extreme interference and unlawful behavior and activity):

<https://archive.org/details/@jfouts1979>

- Note: I am no longer able to save new materials there due to interference.
-

◆ **Additional Evidence (Pending Submission)**

- Physical and digital evidence (medical, legal, housing, communications).
 - Requires acceptance into a **criminal police report** and formal review by **prosecutorial agencies**.
-

◆ **Relief Demanded**

1. Immediate referral to **Federal Grand Jury**.
 2. Immediate opening of a **criminal police investigation** with acceptance of evidence.
 3. Immediate involvement of prosecutorial agencies to analyze and interpret the evidence once submitted (physical and digital evidence must be able to be submitted immediately)
 4. Enforcement of all agencies in Indiana following Indiana and federal law by the Governor in my and my child's case.
 5. Immediate certification and recognition of VAWA as required under federal law with Governor of Indiana oversight.
 6. Immediate referral to victim services.
 7. Immediate investigation and uncovering/exposure of wrongful warrantless surveillance by federal agencies abusing power to retaliate against victim of unlawful practices by Governor of Indiana
 8. Immediate investigation and exposure of what federal mechanism is being used to deny federal benefits and exposure of federal criminal conspiracy. Must relay whatever information is uncovered to victim(s) of the mechanism(s) at play (me and my child).
 9. Oversight and enforcement by the Governor to ensure IHCD and contractors comply with federal and state law.
 10. Stay in regular communication and ensure protective mechanisms are available for me and my child as we are in very dangerous territory - this involves restoration of our ability to get appropriate medical treatments including even for basic primary care physician type services....ensure the housing voucher is immediately released by IHCD as it is being unlawfully and wrongfully withheld and preventing me from being able to use a valid voucher, etc....
 11. Assistance in locating appropriate counsel as so far I have had to do everything on a pro se' basis (meaning I have been representing myself, as a plaintiff in federal court in these matters)...I have yet to find counsel that will accept a case as wide and as deep as mine is and on contingency basis - but I need counsel specializing in RICO, False Claims Act, Widespread Fraud and Abuse, etc...systemic violence and abuse against me and my child is what I am fighting and it is being carried out and orchestrated by state-sponsored persecution type methods by the federal government who appears to have issued a hidden directive based on false pretenses.
